Type of Work:	DRIVEWAY EXCAVATION				
Explosives: N	Overhead: Y	Boring Equipment: N	Pre-Marked: Y		

Marking Instructions

Mark within the pre-marked area. See remarks

Remarks

Just clearing to existing driveway level for safe viewing in my drive as well as drivers on road. Culver (where all utility boxes are viewable) is already well below grade that will be cleared. *** Pre-marked comments: Driveway is already cleared. But County needs mound cleared on west side of driveway for safe viewing as drive is on inside curve in road. The mound is marked with wood stakes and pink ribbon as to what my crew will work on clearing. RELO BY ORIG
